

Our democracy faces a grave danger in the actions of news organizations like Sinclair Broadcasting. Thomas Jefferson said that the key to democracy is an educated populace. When a large proportion of the populace is receiving their information from organizations like Sinclair that have a vested interest in promoting a particular party or candidate, our democracy is doomed.

Sinclair Broadcasting's decision to air an anti-Kerry documentary days before the election is a clear example their bias and willingness to mislead the public through their misuse of the public airwaves.

Media ownership must be more tightly controlled by the government to insure that the public receives accurate and unbiased information. I support any action that will reduce the scope and influence of media giants like Sinclair Broadcasting. Thank you.
